ICaRN (A University of British Columbia based Research Network) –

http://neednaukri.com/icarn/

This website is under construction. I am waiting for the content from the owners. It is developed in WordPress and was a part of my freelance work.

Tools: Custom WordPress, HTML, CSS and, JavaScript

Canadian Caremongering Society - http://canadiancaremongering.org/ - I designed the complete website on WordPress. This project is volunteer work in Canada. The code for this site is available on GitHub at the link below.

https://github.com/Preetirani123/wordpress

Tools: HTML, CSS, JavaScript, WordPress plugin and third party API

Organic moringa - https://organic-moringa.netlify.app/ - This was an internship project in Canada. I am doing this work with a team, so I do not have the permission to provide id and password. But I am sending you the code via GitHub

https://github.com/Preetirani123/react-website

Tools: Webpack, Gatsby, React, HTML, CSS

You can actually run this code on the localhost to see the webpage.

My responsibility included performing layout adjustment based on the designs provided by graphic designer and tester's feedback, using the responsive design element for media (mobile and tablet) compatibility, adhere to style standards on typography, colors, and imagery.

From here, I do not have the permission to share website code with anyone as these were the sites I designed at my previous employer.

Tools of all websites mentioned below: Magento 1 & 2 CMS platform and HTML, CSS, JavaScript, Jquery, Bootstrap and Photoshop

Home leisure - https://homeleisure.com/ - I worked as a designer, and I did the maintenance of this site and also created custom pages and product which is uploaded only on special days like Black Friday, Christmas, etc.

T-shirt Ideal - https://www.tshirtideal.ca/ - Made responsive page design and also uploaded the product

Jazzy Hippo - https://jazzyhippo.com/ - I designed all the pages with the responsive design element

Allies of skin - https://alliesofskin.com/ - I worked with the team as a UI designer from scratch with the responsive design element

Cooksmart - https://cooksmart.co.uk/ - I designed the Homepage, listing page, and all footer page from the PSD file and included the responsive design element.

Hgpmart - https://www.hgpmart.com/ - Work with the team and design the whole website from scratch

MS Technology - http://mstechnology.net.in/ - I did both design and development

Flora India - https://www.floraindia.com/ - I did the site maintenance and also redesigned the cart and checkout pages.
