Canadian Caremongering Society - http://canadiancaremongering.org/ - I designed the complete website on WordPress; however, the website is still under construction. I am hoping to get the content from the owners in the next few weeks for completion. This project is volunteer work in Canada. The code for this site is available on GitHub at the link below.

https://github.com/Preetirani123/wordpress

Tools: HTML, CSS, JavaScript, WordPress plugin and third-party API

Organic moringa - https://organic-moringa.netlify.app/ - Currently, this website is also under construction. This work is an internship in Canada with Evolve X. I am doing this work with a team, so I do not have the permission to provide id and password. But I am sending you the code via GitHub

https://github.com/Preetirani123/react-website

Tools: Webpack, Gatsby, React, HTML, CSS

You can run this code on the localhost to see the webpage, or I can have a video call to show the website if needed.

My responsibility included performing layout adjustment based on the designs provided by graphic designer and tester's feedback, using the responsive design element for media (mobile and tablet) compatibility, adhere to style standards on typography, colors, and imagery.

I do not have the permission to share website code with anyone for the websites mentioned below, as these were the sites I designed at my previous employer.

Tools of all websites mentioned below: Magento 1 & 2 CMS platform and HTML, CSS, JavaScript, Jquery, Bootstrap, and Photoshop. I also used the shipping and payment API in these websites.

Home leisure - https://homeleisure.com/ - I worked as a designer, and I mostly performed maintenance work of this site. I also created custom pages and product which were uploaded only on special days like Black Friday, Christmas, etc.

T-shirt Ideal - https://www.tshirtideal.ca/ - I created a responsive page design and also uploaded the product.

Jazzy Hippo - https://jazzyhippo.com/ - I designed all the pages with the responsive design element.

Allies of skin - https://alliesofskin.com/ - I worked with the team as a UI designer from scratch with the responsive design element.

Cooksmart - https://cooksmart.co.uk/ - I designed the Homepage, listing page, and footer page from the PSD file and included the responsive design element.

Hgpmart - https://www.hgpmart.com/ - I worked with a team and designed the entire website from scratch.

MS Technology - http://mstechnology.net.in/ - I did both website design and development.

Flora India - https://www.floraindia.com/ - I did the site maintenance and also redesigned the cart and checkout pages.
